Direct Drive RETROFIT KIT

NOW Available: Special Introductory Pricing Starting at \$1,199

DuraScrubber® Direct Drive Retrofit Kit

Belanger's DuraScrubber Retrofit Kit is a great way to upgrade your existing DuraScrubber with the latest enhancements. These enhancements increase the DuraScrubber's overall operation including more reliable performance, better cleaning quality, and less maintenance requirements.

This Kit replaces the DuraScrubber's electric chain drive with an electric direct drive. It also upgrades the component to a fully potted, epoxy painted, electric motor with a remote junction box and a new gearbox cover.

Features Include:

- ✓ Direct drive motor and gearbox
- ✓ Single shaft from brush to gearbox
- ✓ Motor is fully potted with a flying lead from the factory
- ✓ Leg mounted junction box

For information on updating your current DuraScrubber with the new Direct Drive Retrofit Kit contact your Business Development Manager or local Belanger Distributor.
