

Gyro Wrap™

Air Cylinder RETROFIT KIT

NOW Available: Special Introductory Pricing of \$4,000 Gyro Wrap™ Air Cylinder Retrofit Kit

Throughput Improvements:

- ✓ Replaces air-over-oil controls with air cylinders and dampeners
- ✓ Provides independent Drivers Side & Passenger Side controls with improved valve panel
- ✓ Features multiple air pressure zones: High Pressure for grill cleaning, Low Pressure for side cleaning, and High Pressure for rear of vehicle cleaning
- ✓ Improves cylinder positional geometry to allow for more aggressive angle of attack when returning on back of vehicle
- ✓ Allows for better grill cleaning, reasonable tilt on side of vehicle, and faster return along backside of vehicle
- ✓ Includes NEW trailer hitch retract feature!

Ease of Maintenance & Adjustments:

- ✓ With air-over-oil system removed, dampening adjustments are eliminated
- ✓ Off Road Dampener offers increased, rugged dampening and excellent temperature ratings to ensure similar dampening characteristics regardless of temperature swings (Cold/Hot)
- ✓ Programmed dampening allows for quick movement across the back of vehicle

For information on updating your current Gyro Wrap with the new Air Cylinder Retrofit Kit contact your Business Development Manager or local Belanger Distributor.

Note: Only available on "4 x 6" Gyro and is currently not available for the insta-Kleen drive-thru application.
