

Foam Bullet®

Foam Bullets® deliver a powerful foaming light show and targeted chemical application – anywhere you want.

Their flashing LED-illuminated nozzle housings attract attention, in your choice of six light colors, to announce services or facilitate site branding.

A variety of nozzle styles allow you to customize chemical delivery and enhance your customers' experience.

Ultra-low chemical usage, as low as one-sixth oz. per Foam Bullet. Supports an unmatched ROI.

Multiple mounting options empower you to add Foam Bullets to existing equipment anywhere in your wash bay, while Multi-Axis™ mounts enable you to effectively target any vehicle surface.

Foam Bullets deliver a powerful foaming light show and targeted chemical application – anywhere you want. Their flashing LED-illuminated nozzle housings attract attention, in your choice of light colors, to announce services or facilitate site branding.
